

August 29, 2022

Dear Parent/Guardian(s),

Beginning the week of September 19, 2022, Sanford Middle School will provide a free tutorial program to students seeking additional academic support. We have two options. Option A is more content-based struggles and includes additional support for homework, assignments, or projects. Option B works with the students to address their academic gaps in reading and math (FSA levels 1, 2, and low 3). Teachers will use various instructional tools to work on the gaps and monitor the progress throughout the program. These sessions are not meant for one-on-one tutoring; however, class sizes will not exceed 15. Therefore, teachers will be able to spend more time with each student than in the classroom setting. If you want one on one help, we are partnered with FEV tutoring, which offers virtual sessions in each content area. All you have to do is type FEV in the search button in your student's clever and schedule your sessions as it fits your agenda. For more information, click here.

If you would like your student to attend the tutorial program at Sanford Middle School, please make sure students

1. Report directly to the tutorial classroom during the designated times listed with their assignments (Option A teachers WILL NOT provide work).
2. Adhere to school and classroom rules and expectations.
3. Arrive at the tutorial on time (am sessions) and be picked up promptly after the tutorial ends (pm sessions).

If the students do not meet the minimum expectations stated above, they will be removed from the tutorial. After 3 consecutive absences, you will be removed from the class.

Please click on the link below to see the options and sign up for the sessions. You may sign up for as many sessions as you wish.
